VOLUME & WEIGHT

PHARMACEUTICAL

PRIMA ET

AUTOMATIC & SIMULTANEOUS DISPENSING SYSTEM

ADVANTAGES

- _ Prima ET allows the dispensing of Bases and Colorants in one operation
- _ Dispensing of the bases directly into empty pails
- _ Refilling of the storage tanks is done with the same pump used for dispensing
- _ Refilling canisters at only 1100 mm height
- _ Agitators and stirring avoids sedimentation inside the storage tanks
- _ Our technology grants only 1 calibration EVER
- _ Long life and extreme easiness of use
- _ Ergonomy: comfortable operating height at 300 mm from floor level
- _ Automatic capping system with moisturizing device
- _ Weight check tracking assures a total quality warranty to professional customers
- _ LCD screen provides information on dispenser status and lifting shelf operations
- _ Safety back-up allows dispensing operations in case of PC failure
- _ High productivity, flexibility and accuracy can be achieved by combining:
 - Dispensing by weight from the external tanks
 - Dispensing by volume from the internal circuits

MODEL	CANISTERS	LENGTH [mm]	WIDTH [mm]	HIGHT [mm]	CAPACITY [lt]
PRIMA 12	12	1000	790	1200	9x6 lt. and 3x10
