

POWDERS DISPENSING

IN-CAN & IN-DRUM POWDERS OR ALUMINIUM SLURRY DISPENSING

SELECTA POWDERS

- In-can and in-drum powder dispensing
- Powders accuracy: 0.1 g
- In-can and in-drum aluminum slurry dispensing
- Aluminum pastes accuracy: 0.5 g
- Flow rate (5 kg/min)
- Simultaneous volumetric (powders) + gravimetric (slurries) dispensing
- Featured containers from 20l to 1500l

Combined Powders + Liquids

- High volume production plant in only 25 sqm area
- Energy saving process: 50 kw gives you from 6 t to 10 t of paints and plaster per hour
- Cleaning water consumption is highly reduced thanks to a smaller “dispensing chamber”, 200 lt and few minutes only to clean the whole system
- Dromont “Clean & Lean” technology combines full automation with environmental concept
